

Mate In Three

(and win one of America's finest shirts)

White to move and mate in three. When you think you've solved it—look again. There's more to this one than meets the eye. Mail your solution (or request for solution) to Celanese Corporation of America, 180 Madison Avenue, New York 16, N. Y., Dept. 14-A. The first 6 correct entries (by postmark) win a free Alfred Shirt. No entries postmarked after May 30 will be accepted. Win or no, the Editors of Chess Review, who conceived the problem, will send you a full explanation.

How to move brilliantly in Celanese* Acetate

Even if you *don't* play chess, you can still make the smartest move of all. Simply get your hands on—and your arms in—these opulent Alfred Sports Shirts. They do wonders for your ego and the reason is clear. Alfred of New York is "Capablanca" of his trade and Celanese acetate reveals his talent at its best. No shirting rivals acetate's cool *comfort*, or its affinity for compliments. Check?

At the right: ALFRED OF NEW YORK's "King Castle" shirt. This rich textured acetate fabric leads a soft life. 16 colors. \$10.95. *At the left:* Alfred's "Grandmaster," tailored of a tweedy-looking sheer acetate that air can seep through, but you can't see through when it's on. \$10.95.

At Wallachs, N. Y.; Halle Bros., Cleveland, Canton, Erie; Maurice L. Rothschild & Co., Chicago, Evanston, Minneapolis, St. Paul; Hastings, San Francisco, Oakland; Louis of Boylston St., Boston. For other stores see last page.

*Reg. U. S. Pat. Off.

Celanese* ACETATE, the fiber that grooms the fabric
